1 Read and listen.  CD4 01 Has Canada got lots of lakes, rivers, mountains and forests?

Hi, I'm Luke. I'm twelve years old and I live near Edmonton, in Canada. Canada is the second biggest country in the world, and it's got lots of lakes, rivers, mountains and forests.

I'm a Junior Forest Warden in a club for people who want to learn about the forest and the wildlife that lives there. We also learn outdoor skills like building shelters. I go with my dad every week after school, and every month we go on a trip. We go hiking and canoeing in the summer, and skiing and ice fishing in the winter.

You can ice fish in lots of lakes, but you have to have a licence. You cut a hole in the ice and put the fishing line through. You can't fish where beavers live. We usually cook some of the fish we catch for dinner.
